Strict „NO“ to biennial FIFA Worldcup-Tournament

Dear Mr President,
Dear Mr Secretary General,

AEFCA-President Mr Walter Gagg expressly positions himself and vigorously contradicts the FIFA-proposal of a biennial FIFA-Worldcup!

AEFCA-Board and -Executive Committee and the 47 affiliated national trainer-associations representing around 200.000 trainers across Europe condemn the intended establishment of a FIFA-Worldcup every two years in the strongest possible terms.

It's only been three months since we watched in horror the drama about Denmark's Christian Eriksen - and he wasn't the first in a long line.
And everyone agreed that players health was the number one priority in the game!

All the Medical Doctors of the 211 national associations are totally against the idea of a FIFA World Championship every two years!

The FIFA proposal leads to a considerable increase in the workload for all parties involved, but the already tight timetable does not offer any space for this.

This proposal to hold the World Cup every two years has a purely commercial background and is the continuation of a whole series of unsuitable FIFA proposals from recent years.

The AEFCA unconditionally supports the position of UEFA!

with kind regards

Walter Gagg
